

# STAND UP! BE COUNTED.

*Donate One Dollar for Yourself and  
One Dollar for Every Person You Love.*

The **National Vaccine Information Center** is “America’s Vaccine Safety Watchdog.” We help families make educated decisions about vaccination. We also support informed consent to vaccination in America.

**It’s your family. Your health. Your choice.**

The vaccine industry is a multi-billion dollar business. We believe Americans should have the opportunity to make smart decisions about using pharmaceutical products, including vaccines. No American should be forced to use a product sold by a drug company federally protected from liability for injuries caused by that product.

**It’s about informed consent. A right we should all have.**

But today, you may not have that choice. In fact, in some states you can be fined and even sent to prison if your children are not vaccinated. That’s wrong.

**Your health and your freedom are on the line.  
Donate today.**

Help us protect your right to make informed, voluntary vaccination decisions for yourself and your children Visit [www.StandUpBeCounted.org](http://www.StandUpBeCounted.org) to learn more.

Spread the word! Every dollar counts because every life counts.
